

40-Taper Attitude, 30-Taper Speed and Price!

FANUC

FANUC ROBODRILL The Only 30-Taper Machining Center

New D Series RoboDrills are heavy-duty, high-speed vertical machining centers with the milling capabilities of some 40-taper machines... at a fraction of the price. They are ideal for off-loading larger, slower machines and for secondary or unattended machining.

Milling Performance Unmatched in a 30-Taper Machine

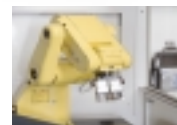

- 300V, 500V, and 700V sizes
- Metal or graphite cutting models
- Working cubes to 27.5" x 15.7" x 12.9"
- Big Plus spindles:
 - 7.5HP 10,000 RPM or 5.0HP 20,000 RPM
- Feedrates to 590 IPM, rapids to 2125 IPM
- Accelerations to 1.5 G
- Spindle HRV control and thermal compensation
- 14- or 21-station ATC/0.9 second changes

Lightning Fast Drilling and Tapping

- Rigid tapping to 6000 RPM
- High-speed reverse tapping
- Peck tapping

Automation for Even Greater Productivity

- Pallet systems
- Robotic loading/unloading
